

# PRESSURE, VACUUM, DIFFERENTIAL PRESSURE, AND TEMPERATURE SWITCHES

# **FEATURES**

- 316 Stainless Steel Construction
- Hermetically Sealed Micro-switch
- Belleville Actuated
- UL, cUL approved and ATEX compliant
- Dual Seal Certified
- Adjustable Ranges:

Pressure: 30" Hg Vac to 12,500 psi (-1 to 861,9 bar)

WC Ranges: -20" wc Vac to 200" wc pressure (-49,8 to 497,8 mbar)

Differential Pressure: 0.7" wcd to 150 psid (1,7 mbar to 10,3 bar)

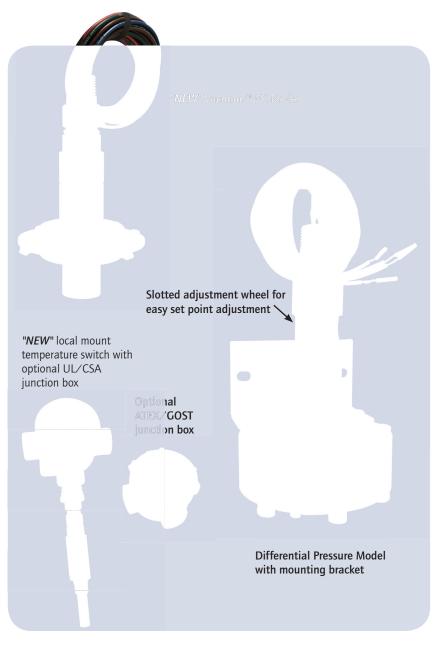

Temperature:  $-130^{\circ}F$  to  $650^{\circ}F$ (-90°C to 340°C)

# OVERVIEW

12 Series hazardous location switches are ideal for operation in tough applications where space is at a premium. A snap-action Belleville spring assembly is used to provide vibration resistance and prolonged switch life. The 316 stainless steel enclosure and hermetically sealed switch provide rugged protection from the environment. Approved for use in hazardous locations worldwide, the 12 Series is installed within applications ranging from offshore oil rigs to rotating equipment, and more.

### FEATURES

- UL, cUL, and ATEX approved for Div. 1 or Zone 1 hazardous locations; CE compliant
- Dual seal compliant to ANSI/ISA 12.27.01 & NEC 501.17
- Pressure switch wetted parts are NACE MR-0175 compliant
- Snap-acting Belleville spring for long life, vibration resistance and stability
- Optional Hastelloy<sup>®</sup> and Monel<sup>®</sup> sensor material for corrosive media
- Optional medium-pressure and high-pressure autoclave pressure connections
- Mounting bracket available for retrofit applications
- 72" leadwires
- 3-year warranty

### WORLDWIDE COMPLIANCE

Triple approval (UL, cUL, and ATEX) mean the 12 Series meets the demanding requirements of critical applications within hazardous locations. Additionally, the 12 Series complies with ANSI/ ISA 12.27.01, "secondary seal requirements for process sealing between electrical systems and flammable or combustible process fluids," and NEC 501.17, "process sealing." It can be used in a variety of applications where space is at a premium. All metal wetted parts comply with NACE MR-0175 and the 316 stainless steel, type 4X enclosure rating assure long-term performance in the harshest environments.

#### APPLICATIONS

# Offshore Platforms Chemical Plants & Refineries

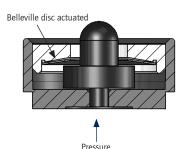

Instrument Panels

**Rotating Equipment** 

### TECHNOLOGY

At the heart of the 12 Series is a Belleville spring assembly. The spring is a small conical washer that transfers motion to a hermetically sealed 1 or 5 amp microswitch. Its 'snap-action' provides fast, positive contact transfer. The Belleville spring 'snaps over' when pressure is applied and 'snaps back' upon pressure release.

#### Advantages:

- <u>Set point stability</u>: The switch performs under challenging environmental conditions such as vibration and temperature changes. In addition, minimal movement of components reduces sensor fatigue thereby increasing life and accuracy.
- <u>Resistance to vibration</u>: Preloading of the electrical switch helps reduce 'contact chatter.'
- <u>Small size</u>: Belleville springs are simple in appearance, but can deliver a heavy load with a relatively small deflection, contributing to a compact design.
- <u>Deadbands</u>: The Belleville is a 'negative-rate' snap acting device, so on-off deadband values are wider at the low end of the range. To minimize deadbands, select a model with a set point at the higher end of the range whenever possible.

**12** Series

### SPECIFICATIONS

**STORAGE TEMPERATURE** -58° to 203°F (-50 to 95°C)

**OPERATING AMBIENT**-58 to 203°F (-50 to 95°C). Set point shifts less than 1% of range for a 50°F**TEMPERATURE**(28°C) ambient temperature change. Slight ambient effects for 25-50' extra<br/>capillary length on temperature switch models, consult factory.

MEDIA TEMPERATUREPressure models: Sensor types 2, 7, 9: -50 to 400°F (-45 to 204°C)<br/>Sensor types 3, 4, 8: -20 to 200°F (-28 to 93°C)<br/>Sensor types 5, 6: 0 to 320°F (-18 to 160°C)<br/>Sensor type P, W: 0 to 200°F (-18 to 93°C); 20 to 250°F (-7 to 121°C) for<br/>optional Viton sensor<br/>Differential pressure models: Sensor type K: 0 to 180°F (-18 to 82°C);<br/>20 to 250°F (-7 to 121°C) for optional Viton sensor<br/>Temperature models: See model chart (Pq. 9).

SET POINTTemperature models: ±1% of adjustable rangeREPEATABILITYPressure models: Sensor types 2, P: ±1.5% of adjustable range<br/>Sensor types 3-9, W: ±1% of adjustable range<br/>Differential pressure models: K1 to K3: ±1%, K4 to K6: ±1.5% of adjustable<br/>range

**SHOCK** Differential pressure and temperature models: set point repeats after 15 G's, 10 millisecond duration Pressure models: Set point repeats after 75 G's, 10 milliseconds

VIBRATIONDifferential pressure and temperature models: Set point repeats after2.5 G's, 10-2000 Hz.Pressure models: Set point repeats after 15 G's, 10-2000 Hz

ENCLOSURE 316 stainless steel

 ENCLOSURE
 Certified to Enclosure Type 4X

 CLASSIFICATION
 Class I, Division 1 product meets enclosure Type 7; Class II, Division I product meets enclosure type 9.

 Certified to IP66 requirements

 SWITCH OUTPUT
 Code S: One SPDT, hermetically sealed.

 Code D: Two SPDT for DPDT action, hermetically sealed

 ELECTRICAL RATINGS
 Code H: 5 A at 125/250 VAC, 5 A resistive and 3 A inductive at 28 VDC.

 Silver contacts
 Code L: 1 A at 125 VAC, 1 A resistive and 0.5 A inductive at 28 VDC.

 Bifurcated gold contacts
 Bifurcated gold contacts

ELECTRICAL<br/>CONNECTIONCode N: 1/2" NPT (male) with 72" leadwires<br/>Code M: M20 metric threads, 72" leads<br/>Option M515, 4 terminal DIN connector (DIN 43650 Form A) available SPDT only<br/>(does not meet Div. 1 or 2, or ATEX requirements.)

WEIGHT	Temperature models: approximately 1 lb 14 oz. (0,85 kg) Pressure models: approximately 12 ounces (0,34 kg) Vacuum, "WC models: Approximately 1 lb 12 oz (0,79 kg) Differential models: K1-K3: approximately 6 lb (2,72 kg) K4-K6: approximately 4 lb (1,81 kg) K1-K3 w/ option M480: approximately 10 lb (4,55 kg) K4-K6 w/ option M480: approximately 5.5 lb (2,5 kg)
TEMPERATURE ASSEMBLY	Bulb and capillary: Non-toxic oil fill; 6 feet 304 stainless steel. Optional lengths available Immersion Stem: 316 stainless steel
TEMPERATURE DEADBAND	Typically 2% of range under laboratory conditions (70°F ambient circulating bath at a rate of 1/2°F per minute change)
PRESSURE CONNECTION	1/2" NPT (female) or 1/4" NPT (female). Differential pressure: 1/8" NPT (female) Optional pressure connections available, see page 12.
MOUNTING	Pressure: May be pipe mounted or bracket mounted using kit 62169-13 Differential Pressure: Should be mounted using 2 mounting holes on attached mounting bracket Temperature: Mounting kit 62169-13 should be specified for new installations

4	10 to 200	24,9 to 497,8	1 to 10	2,5 to 24,9	75	5,2	100	6,9

\*Over Range Pressure: The maximum pressure that may be applied continuously without causing damage and maintaining set point repeatability. \*\*Proof Pressure: The maximum pressure to which a pressure sensor may be occasionally subjected, which causes no permanent damage. The unit may require calibration (e.g., start-up, testing). Application Note: The use of metallic diaphragms where higher pressure shock or heavy cycling is expected should be avoided. Sensor Type 7 to 9 should not be used where system or startup vacuum pressure might exceed 26" Hg Vac.

Sensor	<b>Type R</b> , 304 Sta	ainless steel bulb an	d capillary								
1	-130 to 120	-90 to 48.9	170	76.7	3/8 O.D. x 4-7/8"						
2	0 to 150	-17.8 to 65.6	200	93.3	3/8 O.D. x 7-1/4"						
3	50 to 300	10 to 148.9	350	176.7	3/8 O.D. x 4-7/8"						
4	150 to 650	65.6 to 343.3	700	371.1	3/8 O.D. x 4"						

\*\*Proof Pressure: The maximum pressure to which a pressure sensor may be occasionally subjected, which causes no permanent damage. The unit may require calibration (e.g., start-up, testing) \*\*\*Working Pressure Range: The pressure range within which two opposing sensors can be safely operated and still maintain set point adjustability. #See page 10 on building a part number for switch codes.

+Optional capillary lengths, stainless steel armored covered capillary available - consult UE. Standard capillary length is 6 ft.

#### OPTIONAL MOUNTING BRACKET KIT 62169-13

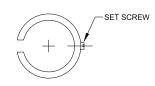

**12 Series** 

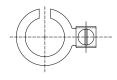

OPTION M421 & M423 JUNCTION BOX

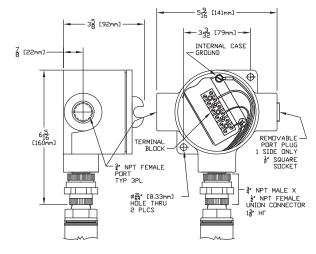

#### OPTION M430 COVER LOCK

#### OPTION M460 EXTERNAL GROUNDING SCREW

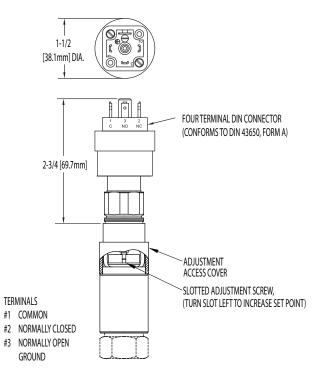

#### **OPTION M513 JUNCTION BOX**

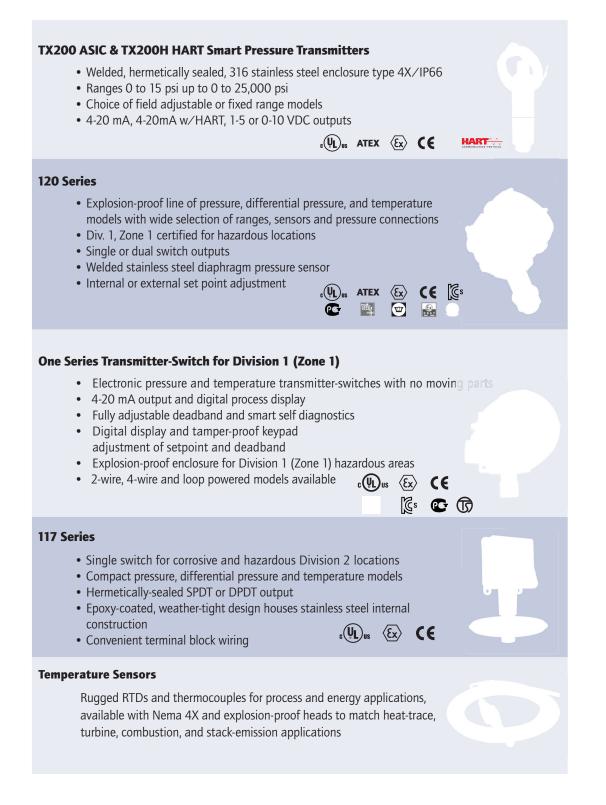

Junction box meets enclosure type 4 requirements only. Not ATEX compliant (see option M423 for ATEX junction box)

### OPTION M515 DIN CONNECTOR.

Does not meet Div 1 or 2 , or ATEX requirements.

# ALTERNATIVE PRODUCTS FROM UE

#### **RECOMMENDED PRACTICES AND WARNINGS**

United Electric Controls Company recommends careful consideration of the following factors when specifying and installing UE pressure transmitters. Before installing a unit, the Installation and Maintenance instructions provided with unit must be read and understood.

- To avoid damaging unit, proof pressure and maximum temperature limits stated in literature and on nameplates must never be exceeded, even by surges in the system. Operation of the unit up to maximum pressure or temperature is acceptable on a limited basis (i.e., start-up, testing) but continuous operation must be restricted to the designated adjustable range. Excessive cycling at maximum pressure or temperature limits could reduce sensor life.
- A back-up unit is necessary for applications where damage to a primary unit could endanger life, limb or property. A high or low limit switch is necessary for applications where a dangerous runaway condition could result.
- Install unit where shock, vibration and ambient temperature fluctuations will not damage unit or affect operation. When applicable, orient unit so that moisture does not enter the enclosure via the electrical connection. When appropriate, this entry point should be sealed to prevent moisture entry.
- Unit must not be altered or modified after shipment. Consult UE if modification is necessary.
- Monitor operation to observe warning signs of possible damage to unit, such as drift. Check unit immediately.
- Preventative maintenance and periodic testing is necessary for critical applications where damage could endanger property or personnel.
- Supply voltage stated in literature and on nameplate must not be exceeded. Overload on a transmitter can cause damage, even on the first cycle. Wire unit according to local and national electrical codes, using wire size recommended in installation sheet.
- Do not mount unit in ambient temp. exceeding published limits.

#### LIMITED WARRANTY

Seller warrants that the product hereby purchased is, upon delivery, free from defects in material and workmanship and that any such product which is found to be defective in such workmanship or material will be repaired or replaced by Seller (Ex-works, Factory, Watertown, Massachusetts. INCOTERMS); provided, however, that this warranty applies only to equipment found to be so defective within a period of 36 months from the date of manufacture by the Seller. Seller shall not be obligated under this warranty for alleged defects which examination discloses are due to tampering, misuse, neglect, improper storage, and in any case where products are disassembled by anyone other than authorized Seller's representatives. EXCEPT FOR THE LIMITED WARRANTY OF REPAIR AND REPLACEMENT STATED ABOVE, SELLER DISCLAIMS ALL WARRANTIES WHATSOEVER WITH RESPECT TO THE PRODUCT, INCLUDING ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

#### LIMITATION OF SELLER'S LIABILITY

SELLER'S LIABILITY TO BUYER FOR ANY LOSS OR CLAIM, INCLUDING LIABILITY INCURRED IN CONNECTION WITH (I) BREACH OF ANY WARRANTY WHATSOEVER, EXPRESSED OR IMPLIED, (II) A BREACH OF CONTRACT, (III) A NEGLIGENT ACT OR ACTS (OR NEGLIGENT FAILURE TO ACT) COMMITTED BY SELLER, OR (IV) AN ACT FOR WHICH STRICT LIABILITY WILL BE INPUTTED TO SELLER, IS LIMITED TO THE "LIMITED WARRANTY" OF REPAIR AND/OR REPLACEMENT AS SO STATED IN OUR WARRANTY OF PRODUCT. IN NO EVENT SHALL THE SELLER BE LIABLE FOR ANY SPECIAL, INDIRECT, CONSEQUENTIAL OR OTHER DAMAGES OF A LIKE GENERAL NATURE, INCLUDING, WITHOUT LIMITATION, LOSS OF PROFITS OR PRODUCTION, OR LOSS OR EXPENSES OF ANY NATURE INCURRED BY THE BUYER OR ANY THIRD PARTY.
